

Louis Stradling compares The United States Constitution to the United Nations Charter

No person can be loyal to the Constitution of the United States AND uphold the Charter of the United Nations. They are as opposite as light and dark, good and evil; freedom and slavery, God and Satan. "No man can serve two masters."

Support of the United Nations by government officials and employees is a violation of their Oath. Wittingly or unwittingly, it is treasonous.

SAN FRANCISCO JUNE 1945

In a war-weary world the United Nations was formed at San Francisco in 1945. A tremendous propaganda campaign mesmerized Americans into accepting it as an agency to end the scourge of war; uplift downtrodden peoples; a leap of freedom, the Last Hope for Peace. It sounded wonderful, but we "lost our heart in San Francisco."

The Senate ratified the UN Charter in a brief hearing with little debate. Few Senators even read it before voting. Langer and Shipstead, who did, cast the only votes against it. Who would suspect that it was a plan of international arch-criminals for conquering the world?

Roughly, the plan was:

- (1) Use the horrors of World War II as reason to establish a peacekeeping organization — the United Nations.
- (2) Continue to promote communist wars of inexpressible horror, slaughtering and enslaving millions.
- (3) The United States fights Cold War to "save the world from communism"; pouring out billions and pretending to oppose communist conquests, but always betraying the victims, and the billions, into communist hands.
- (4) Little by little transform Evil Empire Communists into Friendly Allies.
- (5) Gradually weaken the US internally, destroy the Constitution, abolish religion, corrupt youth, foster drugs, immorality, crime, racial riots; break down the economy, bankrupt business and the nation through debt and inflation.
- (6) Disarm citizens; transfer US military to the UN.
- (7) Rule over defenseless Americans with terror and slavery as in communist countries.

As difficult as it is to believe, and as unwilling as we are to believe it, the above scenario accurately describes events of this century.

WHO ARE THE CONSPIRATORS?

It is not our purpose to name perpetrators and traitors. A person may act knowingly, or unwittingly. Lenin said the communist world will largely be built by non-communist hands; persons who do the work unknowingly. He called them "useful idiots." Patriotic Americans, including most of us at some time, have supported some of their programs.

To trusting Americans it is unbelievable, but veteran readers know that the NEW WORLD ORDER is to be a socialist dictatorship. That popular media and high officials ignore or deny and ridicule it, which confuses people and thwarts organized opposition. This writer is no guru with superior, secret knowledge. These facts are known to hundreds of thousands at home and abroad, and are available to all who will

seek the truth.

If space allowed, every provision of the Constitution could be shown to be incompatible with the UN Charter. Although it hangs by a thread, it is still there, and until military control passes to the UN there is a chance to restore it

SECRET SURRENDER EXPOSED

Though not realized at the time, the UN Charter, ratified as a treaty by the Senate and signed by the President was an instrument of surrender. The mightiest military machine ever assembled, victorious in World War II at the cost of millions of lives, was surrendered to an enemy that had no guns, no territory, no head of state, no existence except on paper.

That the betrayal is progressing in it's later stages is clear to one who knows the plot and sees it unfolding. Unwillingness of most Americans to believe that treason can exist in high places enables the conspirators to continue working toward our enslavement.

FACT 1. During the past 100 years a Satanic international conspiracy — men of immense wealth, power and influence — has been working to conquer the United States and make it a mere province in a world dictatorship. In 49 years of UN existence, the Secretary General has never been an American, but always a foreign Marxist.

FACT 2. Their agents in high places in government are altering our society to merge with communist nations. Soviet agents Alger Hiss and Leo Pasvolsky in the State Dept., Harry Dexter White in the Treasury Dept. and others were principles in organizing the United Nations and in deceiving the Senate into ratifying the UN Charter.

FACT 3. Unknown to most people, we have been operating under UN Regulations for years. The Constitution is in force only where not covered by or in conflict with UN Regulations. These Regulations are weakening America for occupation by foreign troops.

FACT 4. The takeover is far advanced. Some final steps are (1) total gun confiscation (2) universal personal identification by mandatory ID cards or bar-code imprints on right hand or forehead, (3) final transfer of US military forces to UN under communist commanders.

FACT 5. Unless Americans awaken to their awful situation and act soon, they face loss of freedom, family, religion and all they hold dear, under a reign of violence, bloodshed and terror, and for those who survive, slavery.

The UN CHARTER is the instrument of surrender.

Article 25 subordinates the Constitution, laws and courts to Security Council orders and places the life, liberty and property of every American under UN regulations. That is known as UNCONDITIONAL SURRENDER.

Article 27 abolishes Congress's power to declare war even in self-defense.

The United Nations Organization is the machinery for ruling the world.

Article 43 commits US military to endless, winless UN wars, (Korea, Vietnam, Saudi Arabia, Somalia, Bosnia, Rwanda, Haiti, etc.) to gradual transfer of US military equipment and personnel to the UN Military Staff command. This is progressing rapidly, with Americans now fighting under foreign commanders for the first time.

We were lured into the United Nations on the foolish assumption that the Communists who were killing and conquering all over the world, would suddenly become peaceful and friendly. The UN did not stop

Communist aggression but took over and continued it. The UN Charter blocks a member from defending itself, and other nations from aiding it. The UN orders boycotts, blockades and military action against peaceful, non-communist nations. For example, the US boycott, on orders of the UN, was instrumental in the recent overthrow of non-communist South Africa.

Ratifying the UN Charter as a treaty binds the United States to "ACCEPT AND CARRY OUT THE DECISIONS OF THE SECURITY COUNCIL." The Security Council is supreme and its decisions override federal and state constitutions, laws and courts.

AN INTERNATIONAL CONSPIRACY CONTROLS UN.

Americans must realize that this criminal conspiracy designed the United Nations Charter to give them control of both the Security Council and the General Assembly, thereby controlling all nations.

The UN Charter in full operation would mean:

The end of the United States as a nation, making it a mere province in a New World Order, with one vote among 186, mostly hostile, nations.

States and counties merged into regions, with UN appointed officials enforcing UN orders, while practicing extortion on us helpless serfs.

Transfer (surrender) US military to UN under Russian commanders, leaving America defenseless. UN troops policing US cities. Complete disarming of citizens.

American men and women conscripted for military service in faraway jungles, deserts and icy wastelands in continual UN wars.

Constitutional system of justice:(warrant, indictment, due process, venue; jury, counsel, witnesses, habeas corpus, appeal, redress, etc.).replaced by the World Court, an oligarchy without written law, due process, counsel or appeal.

Freedom of speech and press abolished.

Persecution and suppression of religion, government imposed atheism. Secret police, electronic surveillance of every person day and night.

Abolish the traditional family; childbearing with government permit only; children raised in government nurseries. Men and women housed together in barracks.

Education — indoctrination — under strict UN control.

Standard of living reduced to bare subsistence or starvation levels. Food and goods rationed on government ID card or bar-code imprint. Hours standing in long lines for bare necessities Automobiles for officials only. Prison camp forced labor or liquidation for incontrovertibles.

Other slave state measures too numerous and too dreadful to mention here.

UN CHARTER — Masterful Deception

The UN Charter is like the fisherman's fly, attractive but deadly. Glowing phrases deceive good hearted but unwary people. Slogans of peace — freedom from the scourge of war, cooperation for world prosperity; uplift the downtrodden — conceal the hooks of surrender and slavery.

The VETO power was to protect us from any Security Council action contrary to our interests. That was a delusion. The promise that the UN would never interfere in our domestic affairs was a monstrous

deception. UN Resolutions now touch every element of our lives,

The UN was formed with 51 long-established nations, a majority of which could always preserve traditional laws and culture. Soon, however, over 100 small communist-controlled tribal nations were admitted as full members in the General Assembly. The United States, now with one vote out of 186, is virtually powerless.

The UN was to be an association of independent nations cooperating for peace. But members don't control the UN; the UN controls the members. In name only are they sovereign states; in reality, mere provinces in a world dictatorship,

Tricking us into surrender was surprisingly easy. The Senators didn't read the fine print; most of them didn't even read the contract. The Conspiracy did its job well.

It may be truthfully argued that the UN Charter is void, being perpetrated by fraud, or ultra vires — beyond the Senate's authority. The stark reality is, we did sign the treaty, our courts have upheld it, and we are operating under it with tragic results.

SURRENDER IS NOT OCCUPATION

Signing a surrender paper was one thing; taking over the country was another matter. The UN had no army of occupation. With the motto "In God We Trust" 200 million Americans, righteous and morally strong, with a patriotic love for flag and country, were unconquerable. US Military forces were invincible. Loyal military officers and men, National Guardsmen, Sheriffs, Local Police, sworn to uphold the Constitution would refuse to obey treasonous orders. Citizens with 150 million or more guns would resist. The matchless free enterprise economy was out-producing the world. As Lincoln said, all the armies on earth could not so much as take a drink out of the Ohio River.

NO RIGHTEOUS NATION HAS EVER BEEN OR EVER WILL BE CONQUERED

To subjugate America it would be necessary to destroy faith in God, break the American spiritual and patriotic spirit, drag down the free enterprise economy to the level of Socialist Russia, confiscate civilian guns and disarm the nation. Impossible? A diabolical Plan to destroy the United States internally was put into operation. It was estimated it could be done in one generation, or about fifty years.

PLAN OF OCCUPATION

1. Keep the surrender SECRET. Glorify the UN as man's last hope for peace. Extol the UN Charter, as a document of world cooperation the extension of our liberties under the Declaration of Independence and Constitution to the rest of the world. Maintain continual propaganda in churches, civic organizations and schools; annual UN DAY celebrations; UNICEF children's Halloween activities, UN tours, essay contests, mock UN councils in schools, all with heavy and constant media support, brainwashing children, to shape the minds of tomorrow's adults.
2. Maintain and increase occupation personnel in key positions. For years agents and dupes of the Conspiracy such as Alger Hiss, have occupied high positions in government. Professing to be loyal Americans, they are international socialists working secretly to betray us into a New World Order. In Congress, State Dept., Supreme Court and other key positions they wreak havoc with government policies. They are the advance cadre of the occupation army,
3. Demoralize police, foment violence and fear. Claim "police brutality", "criminal rights", impede criminal justice and prison operations, abolish death penalty; foster civil strife between races, sexes, religions, labor, create 100,000 man federal police force (goon squads?); offer Federal "assistance" to fight crime, leading to Federalizing local police, then to UN Interpolice.
4. Destroy religion, morals, patriotism and family. Belittle faith in God; disparage religion. Persecute

churches — first, dangerous “cults”; then all churches as cults. Ban free exercise of religion in public, the workplace, and eventually in the home. Remove God, religion, morality from schools. Banish holidays for Founding Fathers and their ideas from textbooks. Corrupt youth with drugs, sex, pornography, abortion, suicide. Dumb down education; corrupt literature, music, art; bus children for racial balance. Breakdown traditional blood family relationships. Promote homosexual, lesbian lifestyle.

5. Drag down the economy and living standards. Destroy constitutional money to create inflation, enormous debt, leading to national bankruptcy. Impose costly, difficult, business regulations, (such as OSHA, EPA, EEOC) with harsh fines and imprisonment. Exploit absurd environmental fears to curtail lumber, mining, grazing, fishing, and oil industries; weaken and nationalize banks; get people out of their cars.

Phase in cashless transactions requiring government ID card or bar-code imprints in order to buy or sell. Use trade agreements (NAFTA, IMF, WTO, GATT, etc.) to gain government control of US industry, and merge it into an international socialist economy under UN regulations.

6 Disarm the people. Fill media with lurid stories of gun killings Obscure true gun facts; distort 2nd Amendment. Enact progressive gun control laws; make gun and ammunition ownership difficult, expensive and illegal. Finally, confiscate guns. Break down 4th Amendment protection against warrantless entry with “Drug Sweeps” and weapons sweeps, which the people will naively support.

7. Total disarmament and transfer of military to UN command, in accordance with State Dept. Document #7277. (1) Demoralize servicemen, dismantle US defenses. (2) Involve US forces in regional wars . (3) Final transfer of military to UN command, destroying remaining internal defenses.

8. Officially proclaim the surrender. Impose reign of terror; control food, supplies, transportation, communications; government ownership of all property. Control people with UN troops, secret police and electronic surveillance.

POSSIBLE VARIATIONS

As conditions develop, variations may change strategies without altering objectives. Widespread racial riots, mob violence might be a pretext for UN occupation forces to move in to “restore order”. Increasing natural disasters, epidemics, transportation interruptions, shortages of food, gasoline, supplies and power outages which paralyze our computer-driven society and breakdown industrial production show that the conspirators don’t have all the answers or control everything.

God is still in charge. He permits the Babylonians, Philistines, Goths and Communists, to destroy and conquer only to the extent of the iniquities of His people. If, pray God, a wave of repentance should sweep the country, and enough patriots with knowledge and courage will act, America can be saved.

AMERICANS FRUSTRATED AND ANGRY

Americans see it happening but few understand the cause. They are angry over taxes, debt, inflation crime, godless schools, inferior education, health and insurance costs, unemployment, government interference in business –101 deplorable conditions. Angry at the President, Congress, the courts, elected officials; angry at each other; angry at everyone. Except the real culprits. They are frustrated because they feel helpless. They want to amend the Constitution, re-invent government, “throw the rascals out;” embrace phony reforms or “good causes” that make things worse. They don’t suspect that all this is planned and carried on through UN programs.

NONE DARE CALL IT CONSPIRACY.

The key to success of a conspiracy is for people to deny that it exists. Ridicule the “conspiratorial theory of history.” Heap scorn on anyone who exposes it. This ignores the great Satanic conspiracies in all ages which have swept mighty nations into oblivion. It is documented beyond dispute by government, military

and private investigations, and revealed in the “conspirators” own writings, but reports are buried and warning voices silenced. The All- Knowing media can tolerate communism, treason, criminality, immorality, godless schools and Waco tragedies. But God, Bible, Christianity, Constitution, chastity are “damned with faint praise” and if conspiracy is mentioned, they spew a torrent of ridicule upon those “radicals, fringe lunatics, Birchers” who expose it. It is not so much the lies they publish as the truths they conceal that causes the greatest harm.

The trust people put in the media is beyond reason. As babes at the breast of Mother Media, they suck their daily sustenance of managed “news”, lift their skirts to avoid contamination by “extremists” and smug, complacent and “well-informed”, turn to an inordinate obsession with sports.

WE HAVE SIGHTED THE ENEMY.....

Whatever our past ignorance, we are now without excuse. The issue is clear, the enemy is known, the line is drawn. By this we may know friend from foe: anyone who supports the UN or UN programs gives aid and comfort to the enemy. This includes millions of fine, but deceived, Americans who need to change sides quickly.

This message should resound through the halls of government, churches, schools, civic and business organizations, in every home and by word of mouth and every form of media. What is needed is millions of Paul Reveres, shouting the message, “the enemy is here.”

The power to save America lies in the hearts, minds and muscles of WE, THE PEOPLE. A return to God and the Constitution would turn things around. The United States would regain leadership among friendly nations and the grudging respect of unfriendly ones. With UN regulations removed and the Constitution restored, major problems would yield. Heaven would smile upon us. Principles of the Constitution would spread outward to uplift other peoples. It would bring a golden age of righteousness, prosperity and happiness.

CAN WE GET OUT? YES, if.....

YES if Congress will rescind ratification of the UN Charter and all acts pursuant thereto. Without US dollars and participation it would collapse.

YES, If everyone under oath to uphold the Constitution will refuse to support the UN, or any UN program. This is action any person can take. He may stand alone, or he might start an avalanche, but he will clear his soul before God.

YES, if three fourths of states join in Interposition forcing Congress to act.

YES, if Sheriffs in every county take appropriate actions within their authority.

YES, if the media, (print and broadcast) will blow the cover of secrecy and deceit, blazon abroad the facts, arouse the spirit of Americanism and lead out in making the above “ifs” realities.

YES, if enough Americans turn to God in mighty prayer and obedience, and act as free men and women in the strength of the Lord, the combined forces of earth and hell cannot stand before the Lord of Battle.

It depends on WE, THE PEOPLE. Politicians are not leaders; they go along to get along; they will not save America unless prodded with a sharp stick by determined voters.

The Pied Piper media are leading the people down to destruction. Yet, WE, THE PEOPLE, subscribers and advertisers, acting in concert could make them honest or put them out of business.

If the UN or anyone else enslaves us it will be because we let it happen. Enough informed, patriotic, courageous Americans can make the difference. But they cannot do it in ignorance of the nature of the

enemy. Everyone who knows must spread the word until it overwhelms those who, by intent or mistake, support the United Nations or its programs.

What can We, THE PEOPLE do?

Many things, Some things all can do. No one can do everything. No one likes to be the first, or alone, or to be criticized or ridiculed. If we wait until it becomes popular it may be too late. We can "let George do it", but George may be on the wrong side. In the eternal battle for freedom, every person chooses his own part. What you do is up to you, make your choice and get to work.

Here are some suggestions. Do not follow any that conflicts with your morals or best judgment. Use your own ideas and inspiration.

Group action is better than to go it alone. It is better to join an established, experienced organization that to start another splinter group. Many newly-awakened patriots rush out and start their own little group or publication, lacking knowledge, experience, influence and judgment to be effective. They divert energy, time and money that would be more productive with established organizations. Likewise there are many books, magazines, reprints, pamphlets already available that are authentic, well-written and documented. Use them, and spend the time in action.

Beware of popular movements that destroy, rather than save. The enemy has set up scores of idealistic, patriotic-sounding organizations which seduce good Americans to support their insidious programs.

Obey the Ten Commandments and observe the Golden Rule. This is not a religious sermon. It is a political statement of economic and social principles of government. President John Adams affirmed that the Framers had staked the entire civilization and all the American Institutions on the people's ability to obey the 10 Commandments.

The Ten Commandments are the basis of the Constitution and statutory law. The Golden Rule is the basis of Common Law and equity.

The 3rd Commandment, "Thou shalt not take the name of God in vain" may seem trivial, but God does not deal in trivialities. Millions of times a day the Sacred Names are profaned. It profits no one; it harms the nation. It costs nothing to obey it. Whether by earthquake, flood, disease, or whatever, the full price is exacted. Individuals and nations pay the penalty or receive the rewards of their actions.

The 4th Commandment OBSERVING THE SABBATH, and the 5th, PRESERVING THE FAMILY structure of parent and child are as necessary to good government economic prosperity and social order as DO NOT KILL, STEAL, or BEAR FALSE WITNESS.

Americans seem oblivious to the terrible political, financial, health and social costs of desecrating the Sabbath Day. And we do not sin ignorantly; we are in open rebellion against God, WE, THE PEOPLE, except when Sunday work is unavoidable, are responsible. The purchaser more than the seller, the patron more than the promoter is culpable. If the majority of Americans will "remember the Sabbath Day, to keep it holy" it will ease many serious problems. Every one who does is one more on God's side, one less on the enemy's side, and he will be better off and happier for doing it. We do not know how the Almighty balances His books, but this is sure: — individually and as a nation. The rewards and penalties are certain.

UN DAY OCTOBER 24TH

October 24, 1994 is the 49th birthday of the UN. Make it a UN Education opportunity. Organize UNITED STATES DAY programs to expose the UN. If the day is already passed when you read this, start on it in time for next year. 1995 will be the 50th anniversary, and will probably call forth extra celebrations. It is not too early to counteract and defuse them. For a sheet of suggestions for this project, request "SAY "NO" TO UN DAY."

SAY NO TO THE IYF

Expose and defeat the UN IYF (International Year of the Family)

1994 is IYF the UN International Year of the Family Behind a deceptive slogan: "STRENGTHEN THE FAMILY" it is a well-laid plot for abolishing the God-ordained family of husband, wife and children, kindred, grandparents, cousins.

While 1994 is designated IYF, the real push is expected in March 1995 with the world convention in Salt Lake City, to which mayors of all cities in the world of population of 100,000 or more are invited. The insidious purpose is to send mayors home brainwashed, and with a packet of proposed ordinances to be enacted. Such ordinances will inveigh heavily against traditional families, and in favor of the UN defined family of "persons domiciled in a household." If the mayor (or his representative) can be persuaded to stay home, if hundreds or thousands of mayors will stay home, it could defuse and discredit this sinister plot. So, request the information sheet and start informing your mayor and community and church leaders NOW.

THE MOMENT OF TRUTH

To veteran readers all this may only be a review. If you find it hard to believe, go over these facts carefully and prayerfully. Open your eyes and observe what is happening to your beloved America. If you must read newspapers and watch TV do it with critical discernment. As you understand the truth, you will be amazed at how the news is manipulated and controlled.

Still unbelievable? Have you read the UN Charter? Why not? It is affecting your life every way you turn. Have you studied the Constitution? (Probably neither have your "leaders".)

What do you know about the CFR, the Trilateralists, Bilderbergers? Have you studied the great Satanic conspiracies that have existed in all ages of history. Do you understand how they operate? Have you read FBI reports on the UN, or House Committee on Un-American Activities, Senate Internal Committee reports? Military Leaders: General Wedemeyer; James Forrestal; Col. Arch Roberts, General Edwin Walker — many others. The Muzzling of the Military Congressional reports? Senator Joseph McCarthy, Congressmen Ott, Burdick. Have you read the reports of Don Bell, Phyllis Schlafley, Don McAlvaney, The Christian Anti-Communist Crusade, The John Birch Society, Dan Smoot, The Spotlight, Religious leaders: Father Coughlin, Dr. Carl McIntire, Cardinal Mindzenty, David O. McKay, Ezra Taft Benson; Communist defectors Aleksandr Solzhenitsyn Anatoli Golitsyn, Manning Johnson, many others? Are you aware of controls over major newspapers, TV and radio networks? There are many authentic books that expose the UN. How many have you read?

Was the UN Charter largely written by enemies and traitors? YES

Did the US ratify the UN Charter, thereby agreeing to it's terms? YES

Does the Charter bind us to accept all decisions of the Security Council? YES

Does the UN Charter require us to turn our armed forces over to the UN? YES

If it is bad while we still have GUNS, how will it be when the UN has GUNS and we don't?

Are you aware of the program to discredit local police, then federalize them?

Do you really believe that God and prayer should be banished from society?

Do you believe the laws that are strangling business are good, and Constitutional?

Do you want a mark on your hand or forehead, or an electronic implant that tracks your every move from a government computer base?

Do you really think our schools, our free enterprise system would self-destruct?

Does it bother you that our government is abolishing religion, just as Russia did?

Go back to page 5, Plan of Occupation. Are those steps stark realities? Are they not being promoted vigorously by, or with the aid and abetting of forces high in government? And if we continue in the same direction is there any question what the end will be?

Study, pray about it. If any man lack wisdom, let him ask of God – James 1:5 The danger is real. The hour is late. And there are eternal consequences involved.

THE CONSTITUTION AND THE UN CHARTER

By Louis Stradling

UN propagandists say that the UN Universal Declaration of Human Rights and UN Charter are historic documents that extend to the rest of the world, the freedoms and blessings that the Declaration of Independence and Constitution gave to the United States. Americans seemingly accept that, but comparison of those documents proves it false. Their principles are diametrically opposed. The problem is, few Americans have read the UN Charter or perhaps even the Constitution.

The divinely inspired US Declaration and Constitution have a proven record of freedom, progress, prosperity and happiness impossible under any other system.

The UN Declaration and UN Charter are a plan for world socialist dictatorship. Socialism has failed miserably everywhere it has been tried. It survives only because of trade and assistance from other countries. In a total socialist world with no capitalist economies to prop it up, it would sink to abject poverty, and be maintained only by ruthless force. It would become the greatest, most widespread tyranny that ever oppressed mankind.

THE CONSTITUTION AND UN CHARTER COMPARED

Below are brief comparisons of some elements of the two systems, rather THREE systems:

(1) UN Charter; (2) United States Constitution as WRITTEN and ORIGINAL INTENT, (3) the Constitution as it now exists in practice. Efforts to alter our system to merge into a socialistic New World Order have breached the Constitution drastically. In this analysis, references are to the Constitution as it was written and as to original intent, not as amended and violated today.

NOTE: The Universal Declaration of Human Rights is a propaganda device to convince us that government is the source of rights, and world government is essential to secure them. In terms of peace, democracy, rights, and prosperity, millions of copies were distributed to schools, churches, government civic groups, praised as a milestone of freedom for mankind. But in the ratification process a far different document–The Covenant on Human Rights was substituted, and it is the operating document. (The smoothest bait-and-switch trick since Jacob bargained for Rachel and got Leah.) The Universal Declaration is still held up as the shining standard, but it is the little-known COVENANT with iron teeth on which UN laws are based. It is the Covenant that is compared in this analysis.

Patriots must understand correct principles of the Constitution, recognize departures from it, and the disparity between it and the UN Charter. These brief notes on selected elements are intended as groundwork for further study. For brevity, abbreviations used: DOI=Declaration of Independence. CHR=Covenant on Human Rights. Constitution concepts are in bold face; UN Charter concepts in regular face.

AUTHORITY

The first principle of organization or action is the AUTHORITY by which it exists or is taken.

DECLARATION OF INDEPENDENCE and CONSTITUTION:

Authority from God the Author, Creator, Judge, Lawgiver: Source of rules of conduct for individuals and governments. DOI and Constitution derive from Bible:

The Ten Commandments are the basis of the Constitution and statute law;

The Golden Rule is the basis of Common Law.

DOI and Constitution are outgrowth of centuries of development through Common Law, Natural Law and Revealed (scripture) Law. A solid rock foundation of fixed principles. Tends toward understanding, trust, freedom, peace, prosperity.

COVENANT ON HUMAN RIGHTS. Assumed, usurped authority: Recognizes no Creator; no authority or law higher than man. That leaves only two sources of authority:

1. "Social compact" Humanism — established by deception; maintained by force.
2. "Might makes right" Marxism — established and maintained by force and terror.

Law is made or revoked by whoever has the power. A sandy foundation that tends toward confusion, distrust, slavery, rebellion, violence, poverty.

OATH OF OFFICE

Constitution: solemn oath before God required to hold office. Basis of system of Justice

UN Charter: No oath required; would be worthless based on nothing but affiant's word.

It appears that most of our government officials no longer regard the Oath as sacred, violating it without compunction. If an oath means so little to our leaders who take it, what trust can be placed in UN officials who take no oath, and whose concepts of God, justice, morality, rights and freedom differ so drastically from ours.

INDIVIDUAL WORTH vs THE MASSES

DOI: Man created by God in His image makes the worth of individual paramount. Tends toward self-respect, honor, ambition and respect for others.

CHR Man an evolutionary accident, no worth as individual, only as masses for the good of the state. Killing, torturing, enslaving millions to achieve political goals is acceptable. No future life, no judgment. Tends to indolence, indulgence, crime, lust for power.

RIGHTS

Only three possible kinds or sources of rights:

1. Divine rights—from God; an inherent endowment at creation; UNALIENABLE
2. Human rights — from man, ALIENABLE by man.

3. Civil rights –from government, ALIENABLE by government.

DOI: Endowed by God at birth; every person is responsible at the Judgment for their use. Unalienable, that is, as inseparable as one's breath or heartbeat, and which no person or organization can justly infringe.

CONSTITUTION — “BILL OF RIGHTS” Not a list of rights but prohibitions against Government interference with rights of individuals. “The Congress shall not...” applies to all ten of the amendments known as the Bill of Rights. The 9th Amendment does not list any rights, it reserves ALL rights to the people.

CHR: Several pages listing “rights” of many kinds: race, religion, age, sex, women, child, employee, property, housing, environment, animal; “right” to life, health, food, clothing, equality, education –open ended list with vague definitions. These are not rights to be enjoyed, but OFFENSES with penalties for violation. It is government jurisdiction over every action and word. This makes everyone on earth subject to arrest on flimsy charges, and trial in a UN court. The offenses are so numerous, extensive and ambiguous that one could hardly go through a day without committing some violation. The Federal Hate Crimes Index is a computer record of reported violations, being compiled for future prosecutions. Creates climate of suspicion and fear. In the name of RIGHTS the Covenant of Human Rights destroys all rights. To equate the diabolical UN COVENANT with the divinely inspired DECLARATION OF INDEPENDENCE is profane.

CONSENT OF THE GOVERNED

DOI and Constitution were written by elected representatives. Approved by Continental Congress and ratified by colonies. Officers subject to removal by the governed, by voting, impeachment or recall.

CHR and UN Charter Written by obscure, unelected writers in the name of WE, THE PEOPLES OF THE WORLD. but with no valid consent of any people. Never approved by the peoples of the world. Usurped authority, People have no power to remove except by rebellion.

ELECTIONS

Consent of the governed is provided by free elections

On the federal level the Constitution provides the so-called electoral college for choosing the president and vice president. This has been abandoned in all but formality, replaced by the Party system of National Conventions, wearisome campaigns, and mass elections. Americans seem unaware of the terrible price it exacts.

On the state level the Constitution provides for each state to determine it's own election laws, with certain safeguards by the federal government. The “one man, one vote” rule has played havoc in state elections.

With whatever abuses and weaknesses the system may have, it is still far better than any other system. Open candidacies, freedom of assembly, press and speech, and general integrity of the voting process come as close to “consent of the governed” as present conditions allow.

UNITED NATIONS ELECTIONS. Officials of the UNO are, in general, elected by the General Assembly. In most countries the people have little to say about their officials. The UN can and does interfere in elections in nations, on the pretext of assuring free elections. It's record in that regard is not noteworthy

COMPARISON OF THE TWO PREAMBLES

The Constitution Preamble is clear, concise, specific, authoritative, perhaps the best statement on

functions of government ever written.

The preamble of the UN Charter is a crude imitation, rambling about the scourge of war, democracy, peace and human rights.

MORE PERFECT UNION

Constitution: provides a superior plan of federation of Sovereign States united for national, foreign and interstate concerns, with federal government strictly limited to enumerated powers. As they qualify all nations could be admitted. This "more perfect union" would provide sound money, facilitate free flow of commerce, spreading prosperity to developing countries. Chances of war would diminish to about as great as war between Maine and Kansas.

Republican form of government for every state, with all reserved powers, would enable each to retain it's own laws, language, religion, culture, customs, and domestic governance, without interference by other states or the federal government. This would prevent most of the tensions in our world and solve problems at lowest level of government. This makes for efficient administration and low taxes.

The UNITED NATIONS ORGANIZATION is not a UNION at all, but a totalitarian empire, with power limited only by it's ability to enforce. At present it lacks the guns, but if US military comes under it's control, it can enforce it's edicts Sporadic rebellions will flare up requiring constant little UN wars to suppress them. The UN Charter is a guarantee of war, not peace

.

ESTABLISH JUSTICE:

Constitution: system of justice founded in the wisdom of God, adaptable to universal application. Written Law, precedent; not subject to prejudices or intrigues of men; due process; equality before the law. Provides freedom of action within known law.

UN Charter: provides "justice" through a maze of ambiguous Resolutions. Laws and disputes are adjudicable by the World Court, a conglomeration of appointed "judges" of different races, languages, religions, principles, laws, economic system sand traditions, and without written law, precedent, due process, counsel, or appeal.

COMMON DEFENSE: (See WAR POWERS below)

GENERAL WELFARE (economic System)

CONSTITUTION: Individual liberty in free enterprise system produced explosion of prosperity and progress in invention, production, commerce, religion, education, health, charity, travel and culture. Brought millions of immigrants seeking a better life. (This prosperity is being diminished by UN programs that violate the Constitution)

UN CHARTER:: "General Welfare" is the pitiable condition of oppression and poverty under socialism, as in Russia, China, Cuba from which people flee at the risk of their lives.

US FREE ENTERPRISE: Freedom to own and control property, contract, patent, buy, sell, travel; a sound uniform money, standards of weights and measures, and other principles of commerce, resulted in prosperity exceeding that of any other system, with miracles of transportation, communications, abundance of food, clothing, housing, furnishings, etc. It is unthinkable that we allow our leaders to exchange it for any other system, least of all, socialism,

UNITED NATIONS SOCIALISM State ownership and control of means of production. UN control of world economies through Trilateral Commission, World Trade Organization, NAFTA, World Bank, International

Money Fund, GATT, etc. It will eventually reduce America to a slave state with forced labor, producing for undeveloped peoples eager to get American goods. Forced adoption of the metric system is unnecessary and a blow to our economy. UN environmental programs are harming mining, oil, lumber, fishing, grazing and other industries.

PROPERTY RIGHTS

CONSTITUTION: Private ownership and control of property is the foundation of freedom.

Strictly limited property ownership for the federal government.

UN CHARTER: Abolition of private property.

Every year Congress expropriates millions of acres of forest, wilderness, and other lands in violation of the Constitution. Private property is being taken, (by control, if not by seizure or title), by tax laws, zoning, urban renewal, wetlands policies, environmental regulations, RICO, S&L seizures, home foreclosures, etc. The UN goal is complete confiscation of property and total control of people.

Blessings of liberty for ourselves and our posterity Disparity too obvious to dignify by comment.

Thus, the PREAMBLES establish the legitimacy of the Constitution and expose the illegitimacy of the UN Charter. How can anyone justify our continued participation in the UNO?

SEPARATION OF POWERS

(A brief statement of principle is in order for correct understanding of "separation of powers.")

ALL POWER is given by God to persons individually They may delegate collectively, some (not all) powers to government, reserving all others to themselves. The ultimate power is in PEOPLE, not GOVERNMENT. Usurpation and abuse of power cause most of the misery in the world.

Bible students know that attempted usurpation of God's power by Lucifer resulted in war in heaven and his downfall. He became Satan, the Devil (Evil One) Usurper, Destroyer. . In every age, including ours, he has inspired men with lust for power, and revealed secret plans for gaining it. Such ancient conspiracies, recorded in histories and scripture, have swept mighty nations into oblivion.

They destroyed the ante-deluvians, led to confounding of languages at the Tower of Babel; overthrew nations in Old Testament times. There were the Illuminati of Europe; the Gadiantons in ancient America; conspiracies in the dynasties of Asia. Denying existence of world conspiracies is akin to goldfish in a bowl proclaiming that life cannot exist out of water.

The key to tyranny is to concentrate power, vertically at the top, and horizontally in one body or person. The principle of "separation of powers" in the Constitution is one of most brilliant political devices ever conceived.

CONSTITUTION, "separation of powers" provides checks and balances against usurpation.

HORIZONTAL; Legislative, Executive, Judicial. (In our day there are serious usurpation by the Executive and Judicial Branches, leaving The Legislative Branch ineffective. (GRIDLOCK)

VERTICAL Federal: limited to enumerated powers, NO jurisdiction over individuals.

State: Such powers as not delegated to Federal, prohibited to states, or reserved to the people.

Local — County, community

People –all powers not delegated to Federal, State or Local.

(Federal usurpation of powers of states is extensive Several states are considering suing the Federal Government under the 10th Amendment reservation of powers doctrine.)

(Federal exercise of power over individuals today would grieve the Founding Fathers.)

UN Charter: UN has no separation whatever; with all power concentrated at the top. Horizontal Security Council exercises all three powers. Vertical Security Council. holds all power over members (nations) and every individual down to the baby born a minute ago.

Members (including USA) exercise power over their own people as ordered by the Security Council. Subordinate officers are obsequious satraps, currying favor and avoiding displeasure of superiors. by enforcing their edicts, with oppression and extortion upon the serfs. People (masses) have only such powers as are allowed by UN and Province officials. Thus, under the UN Charter, the Conspiracy, by means of the Security Council would control every inhabitant of the earth. They would become the rulers of the world. Heady wine, indeed. The Almighty may send the Barbarians before it goes that far. Either way would be dreadful.

WAR POWERS:

CONSTITUTION “To provide for the common defense”–Preamble “Full power to levy war, conclude peace and contract alliances”–Declaration. of Independence.

Congress has power to declare war, raise and support armies, maintain navy, make rules for regulation of armed forces; use National Guard to suppress insurrections and repel invasions; The president — commander in chief; negotiate treaties, conduct diplomacy through ambassadors. All these provisions for defense are invalidated by the UN Charter. The very reason for government — organized, collective defense of life, liberty and property—is destroyed. In the absence of collective defense, the right of personal defense is supreme, but if weapons are confiscated, the power to defend oneself and family is infringed unjustly.

The USA under the Constitution and Providence was invincible before joining the UN.

UN CHARTER: Security Council has sole power to decide when, where, and by whom any military action is taken. On UN orders Americans fought in Korea and Vietnam; The Gulf, Somalia, Bosnia, Rwanda, and now, Haiti. The UN Charter denies a nation self-defense and aid by other nations. Any nation MUST take military action, impose blockades or boycotts against another nation, on orders of the Security Council. In this way free nations, such as Rhodesia, Katanga, and recently South Africa, are being toppled, one by one.

The Conspiracy controls the Security Council with a perpetual majority of “their own men” on it. The US representative, even if he is not hand-picked by them, is powerless. They control the General Assembly with votes of a hundred tribal “states.”

How inconceivable that we would give such vast power to a foreign conglomerate. How carelessly 90 Senators betrayed all nations into the hands of a few archfiends. How thoughtlessly elected officials, community leaders and WE, THE PEOPLE took the viper to our bosoms. How blindly we continue to glorify, fund and participate in programs for our own destruction. The wisdom of the Founding Fathers forgotten; the sacrifices of heroes of the Revolution betrayed; the hopes of mankind gone; principles of truth, right, freedom and the worth of man cast aside. We understood neither the wonders of the Constitution we abandoned, nor the evils of the system we embraced.

TAXATION

CONSTITUTION: Federal Government power to tax limited to duties, imposts, excises and INDIRECT

(unless by apportionment) taxes. No power to tax any individual or inquire into his finances The 16th Amendment (Marxist Income Tax) invalidated that protection and opened everyone's purse and papers to the IRS. The Federal Reserve System has destroyed Constitutional money robbing the people of billions by inflation. The Income Tax and Federal Reserve were designed by the same conspiracy that hatched the UN Charter.

UNITED NATIONS: The UN can tax member states limited only by its ability to collect. The Security Council can levy taxes for "peace keeping" operations as it chooses. Billions in foreign aid are dutifully approved by Congress to meet UN commitments. The World Bank and IMF (International Monetary Fund) are indirectly UN "tax" payments. If it obtains full military control, there will be a world tax system under the General Assembly, where we have one vote among 186. Guess who will be taxed most.

JUDICIAL SYSTEM:

CONSTITUTION "Establish justice"- Preamble in accordance with "The Laws of Nature and Nature's God"-Declaration of Independence. Our system of justice is founded in the wisdom of God on Bible laws preserved through centuries by Anglo-Saxons; developed, codified and infused into our institutions, courts, laws and customs. It surpasses all the world in securing "liberty and justice for all"

Some provisions are: a Written Constitution as supreme law of Land; Rule of Law, not Men; equality before the law; due process; presumption of innocence; probable cause warrant, grand jury indictment, due process, venue; jury, counsel, witnesses, habeus corpus, appeal, redress, security of persons, houses, papers and effects from unreasonable search and seizure; not compelled to witness against oneself; speedy, public trial; impartial jury; subpoena; etc. All these great principles of liberty and justice are nullified under the UN Charter, the progress of centuries thrown back to the Dark Ages.

UN CHARTER: acknowledges no God; no eternal law, no principles or wisdom above man's. The Charter is written but contains no restraint that cannot be set aside by entrenched despots. It is rule of men, not law.

THE WORLD COURT holds the judicial power of the UN, but, like the Security Council is under control of the Conspiracy through power to appoint and influence judges.

The World Court is an oligarchy without written law, binding precedent, due process or appeal; a conglomeration of 15 "judges" of different races, religions, economic systems, traditions. Can decisions of honor and justice, be expected from such diverse philosophies? Imagine standing before them charged with racial discrimination or child abuse, with no counsel, no witnesses, no jury. Will godless communists who killed millions of their own, and worked to overthrow our government, rule in favor of the US or its' citizens?

SUMMARY

This above brief analysis shows the utter disparity of the two documents and systems. A study in greater depth confirms that incompatibility. Americans must choose, if the choice is still open, freedom and prosperity or slavery and poverty. What will it be?

The Land of the Free and the Home of the Brave

or

The Land of the timid and the Home of the Slave

[Ed. Note: The information contained in this special publication is the distillation of over fifty years of study and research by Louis Stradling, who made his first speech against the United Nations in 1945. It was first published, in part, in a special issue of Aid & Abet Police Newsletter. If you have trouble believing any of this material, then you need get to work and prove to yourself whether there is a great conspiracy

seeking to create a one-world economy complete with a one-world government, with its structural basis in the United Nations. We are grateful to Mr. Stradling for sharing his knowledge and insight with our readers.]
